EDUCATION

University of Illinois at Urbana Champaign

Masters in Computer Science

2024 - 2025

CGPA: 3.79 / 4

Siliguri Institute of Technology

Bachelor of Technology in Computer Science and Engineering

2019 - 2023

CGPA: 9.47 / 10

WORK EXPERIENCE

Informatica - R&D Software Developer

Sep 2022 - May 2024

- Working with ReactJS, TypeScript and other TPLs to add additional functionality to enterprise applications.
- Working on DataQuality and Automation using Java with Apache Spark with build generation, deployment and sanity testing on Jenkins in a CICD environment.
- Single handedly migrated HTML based Quill editor to Markdown based Lexical across all Infa products used by millions of customers resulting an approximate 25% increase in user experience.

Twilio - 2022 Summer Intern

Jul 2022 - Sep 2022

- Checking duplicity in 8000+ Salesforce accounts using Datafox and querying and mapping required data using Data Grip integrated with PostgreSQL and Presto.

F Square Media - Flutter Developer Intern

Mar 2022 - Jun 2022

- Developed Flutter apps using Firebase, enabled full-text search with Algolia and integrated PubDev packages and Google Auth while replacing MVC architecture with MVP.
- Published apps witnessed 10,000+ downloads on Google Play Store.

PROJECTS

EduFlood + | [Check the Project](#)

- A complete web app with responsive UI built using ReactJS to spread awareness on sea-level rise and flooding.
- Also features 3D models with AR interaction and modern modal components with proper state management Integrated with several APIs including OpenAI, Twilio and an ML model hosted on Flask.

Lexical RTE | [Check the Project](#)

- A Rich Text Editor built using ReactJS, TypeScript and Lexical (TPL) open-sourced framework provided by Facebook. This helped migrate from a HTML based editor to a Markdown based.
- Included custom transformers with RegEx matching to include abilities like mention users, and emojis.

Bike Safe | [Check the Project](#)

- A Flutter app that alerts the guardians when user rides a motorbike at high speeds using OAuth and JavaMail.

Rent It | [Check the Project](#)

- A Flutter app with a web admin panel also built using Flutter facilitating user-to-user renting of items using classifieds with Firebase as backend.

COMMUNITY EXPERIENCE

Core Team Member @Google Developer Student Clubs

Aug 2020 - Aug 2021

- Organized [Unpack-droid](#), workshops and [hackathons](#) to give experience to students on Android development.

Volunteer @Rooh Foundation

- Conducted a women-empowerment drive and a cloth donation drive.

Jul 2021 - Dec 2022

SKILLS

- Languages:** JavaScript, TypeScript, HTML5, CSS, Java, Dart, C++, C, Python, Kotlin, SQL(PostgreSQL)
- Developer Tools:** Bash, Firebase, CodeMagic, Android Studio, DataGrip, Spyder, Git, Unreal Engine, BaBel, Webpack
- Lib/Frameworks:** ReactJS, JQuery, Flutter, Material-UI, Bootstrap

ACHIEVEMENTS

- Winner of [Smart India Hackathon 2022](#) Software Edition, Finalist in Singapore-India International Hackathon and UNESCO India-Africa International Hackathon.
- Worked on a project in collaboration with The Government of India.
- Received a double promotion at Informatica for exceptional performance in the Frontend role.
- Named "Top Student" for CS 440(Artificial Intelligence) at UIUC.
